Geoderma 69 (1996) 287–288

GEODERMA

Contents Volume 69, 1996

Interpretation of soil features produced by ancient and modern processes in degraded landscapes: V. Development of saline sulfidic features in non-tidal seepage areas
R.W. Fitzpatrick, E. Fritsch and P.G. Self 1

Evaluation of polyester, epoxy and acrylic resins for suitability in preparation of soil thin sections for in situ biological studies
R. Tippkötter and K. Ritz 31

Characterization of the organic components of an Alfisol and a Vertisol in adjacent locations in Indian semi-arid tropics using optical spectroscopy, ^{13}C NMR spectroscopy, and ^{14}C dating
S. Arai, T. Hatta, U. Tanaka, K. Hayamizu, K. Kigoshi and O. Ito 59

Accuracy of the saturated hydraulic conductivity prediction by pedo-transfer functions compared to the variability within FAO textural classes
O. Tietje and V. Hennings 71

Splash and wash dynamics: An experimental investigation using an Oxisol
R.A. Sutherland, Y. Wan, A.D. Ziegler, C.-T. Lee and S.A. El-Swaify 85

Characterization of organic matter in an interlayer clay–organic complex from soil by pyrolysis methylation-mass spectrometry
H.-R. Schulten, P. Leinweber and B.K.G. Theng 105

Investigation of an aggrading paleosol developed into andesitic ring-plain deposits, Ruapehu volcano, New Zealand
S.J. Cronin, V.E. Neall and A.S. Palmer 119

Zinc adsorption by a calcareous soil. Copper interaction
M.E. Mesquita and J.M. Vieira e Silva 137

A system for microscale tensiometry and lysimetry
A. Göttlein, U. Hell and R. Blasek 147

Testing the performance of a one-dimensional solute transport model (LEACHC) using response surface methodology
N.M. Holden, A.J. Rook and D. Scholefield 157

Preferential bromide transport through a clay loam under alfalfa and corn
J. Caron, O. Banton, D.A. Angers and J.P. Villeneuve 175

A methodology to evaluate the reliability of the Belgian soil map for predicting the actual water table characteristics
G. Boucneau, M. Van Meirvenne, J. Desmet and G. Hofman 193

Influence of freezing and thawing on the carbon isotope composition in soil CO_2
A. Dudziak and S. Halas 209

Seasonal variability of infiltration rates under contrasting slope conditions in southeast Spain
A. Cerdà 217

Multivariate analysis in the quantitative evaluation of soils for reforestation in the Sierra Nevada (southern Spain)
M. Sánchez-Marañón, R. Delgado, J. Párraga and G. Delgado 233
Soil-water behaviour in a push terminal moraine: comparison of one- and two-dimensional simulations based on intensive regional field observations
A. Pollex, D. Krug, C.W. McVoy, H. Sponagel, B. Diekkrüger and O. Richter 249
Relationship between soil properties and phosphate saturation parameters A transect study in northern Belgium
R. Lookman, K. Jansen, R. Merckx and K. Vlassak 265
The calculation of base cation release from mineral weathering in soils derived from Palaeozoic greywackes and shales in upland UK
S.J. Langan, B. Reynolds and D.C. Bain 275
